👤 ABOUT

Skilled System Administrator with 3+ years of wide knowledge of Operating Systems & Terminal and Full Stack Developer who can build web and mobile apps from the ground up. I have experience working with clients as well as company work. Always committed to professional growth and improving skills.

🏢 EXPERIENCE

Microsoft Cloud Services Administrator, ITACET

April 2017 — June 2019 🕐 2 years

ITACET is Microsoft's gold partner and cloud solution provider.

- Planning and implementing cloud onboarding solutions for new and potential clients
- Manage and administer over 2500 user accounts and devices hosted on AzureAD
- Provide technical support, responding to service requests and resolving issues
- Workflow and infrastructure deployment automation with PowerShell

Freelance Software Developer, EVANSIT (ss@evansit.dev)

October 2018 — Present 🕐 2 years

My previous extensive knowledge of PowerShell (Object-Oriented) scripting language encouraged me to dive deeper into programming and helped my self-tough developer/entrepreneur growth.

- Started a Company

🔖 PROJECTS

TermoNik , Website

December 2019 — December 2019 ⏱ 10 days

Example client work, technologies used:

- **Frontend:** ReactJS / Gatsby, Material UI, GraphQL
- **Backend:** Contentful (Headless CMS)
- **CDN:** Netlify
